

April 19th, 2019

Dear Friends,

After 42 years as a Physician and 26 years as a Professor of Medicine, I am retiring from TTUHSC.

I am indebted to President Mitchell and Provost Berk for the opportunity to direct the Clinical Research Institute. Receiving recognition for these efforts has been a great honor. It was a direct result of collaboration with TTUHSC faculty, staff, and trainees. Our work has taken the Clinical Research Institute accomplishments to new heights as chronicled in the 2018 CRI annual report.

I am also appreciative of the support received from the Clinical Research Institute Advisory committee and thank the Clinical Research Institute staff that have contributed to our success.

The executive leadership has my complete support during the transition.

Go Tech!

Warmest regards

A handwritten signature in cursive script that reads "Alan Peiris". The signature is written in black ink and is positioned above the typed name and titles.

Alan N. Peiris MD(London), PhD (London), FRCP(London), FACE, MRCP(UK)
