

# Student Satisfaction Survey

---

## TTUHSC Institutional Report 2020-2021

### Summary

- The *Student Satisfaction Survey* is administered once every two years. The 2020-2021 version is comparable to the 2018-2019 version. New and revised items are marked appropriately.
- Approximately 87% of respondents reported being “extremely satisfied” or “satisfied” with their overall experiences at TTUHSC.
- When asked if they made the right decision to attend TTUHSC, more than 71% students indicated that they “definitely” made the right decision.
- Maintaining healthy balances across different aspects of their lives continues to be a priority for students, and a desire for increased support for mental health was highlighted by student comments.
- In general, students in the School of Nursing report noticeably high levels of satisfaction with services across the institution.
- Student satisfaction is comparable, if not higher, for students enrolled in distance education programs compared to students in more traditional, face-to-face programs.
- While some students have welcomed online learning that resulted from the COVID pandemic, most students indicated a strong desire to return to fully in person instruction and activities.
- One key area of student dissatisfaction was the availability of common spaces to gather between classes, at night, and on weekends.
- Diversity and inclusion were highlighted as both something students most appreciate about TTUHSC and an area for improvement.
- As expected, open-ended comments reflect a variety of topics that offer specific opportunities for continuous improvement. Readers should exercise caution in evaluating isolated comments, as they may not reflect the opinion of the whole.

### Methodology

The *2020-2021 Student Satisfaction Survey (SSS)* was administered in Spring 2021. The data collection period lasted approximately one month (March 15 – April 16, 2021). Targeted participants included all students enrolled at TTUHSC as of March 15, 2021. The initial invitation to complete the online survey was sent via email by *TTUHSC Student Affairs*. A subsequent reminder was sent via email about one week before data collection ended. Information about the survey was also posted on the TTUHSC announcements online and the HSC Rounds. Members of the Executive Student Affairs Workgroup were also asked to promote the survey in their schools and across campuses. Five \$500 scholarships were offered as incentives for participation.

## Demographics

A total of 2,126 of 5,463 students responded to the survey, resulting in a response rate of 39%. Respondents represented the following schools and campuses.

| SCHOOL  | CAMPUS   |
|---|--|
| <ul style="list-style-type: none"> <li>Graduate School of Biomedical Sciences (GSBS)</li> <li>Jerry H. Hodge School of Pharmacy (SOP)</li> <li>School of Health Professions (SHP)</li> <li>School of Medicine (SOM)</li> <li>School of Nursing (SON)</li> </ul> | <ul style="list-style-type: none"> <li>Abilene (ABL)</li> <li>Amarillo (AMA)</li> <li>Dallas (DAL)</li> <li>Lubbock (LBB)</li> <li>Lubbock-Covenant Health System (LBB-COV)</li> <li>Midland (MDL)</li> <li>Odessa (ODS)</li> <li>Distance education (DIST)<sup>a</sup></li> </ul> |

<sup>a</sup> Respondents were classified as distance education students if they self-reported that 50% or more of their coursework is completed through distance education.

Figure 1 illustrates the percent of survey respondents by school in comparison to the percent of students enrolled by school in Spring 2021. Survey respondents were appropriately represented in GSBS and SOM. SON and SOP students constituted a higher percent of survey respondents than expected, whereas SHP respondents were underrepresented in comparison to the student population.

Figure 2 illustrates the percent of survey respondents by campus in comparison to the percent of students enrolled by campus in Spring 2021. Survey respondents were appropriately represented in Abilene, Amarillo, Dallas, Lubbock-Covenant, Midland, and Odessa. Students based on the Lubbock campus constituted a higher percent of survey respondents than expected, whereas distance students were underrepresented in the survey. This may be due, in large part, to student perception. Some distance students affiliated themselves with a specific campus even though they are enrolled in a distance education program.

## Results

**Quantitative Data.** Students indicated their overall satisfaction with their experiences at TTUHSC using a 5-point scale (5=Extremely satisfied, 4=Satisfied, 3=Neither satisfied nor dissatisfied, 2=Dissatisfied, and 1=Extremely dissatisfied).

Approximately 87% of respondents reported being “extremely satisfied” or “satisfied.” See Figure 3.

When asked if they felt like they made the right decision to attend TTUHSC, students responded favorably. Approximately 71% of students indicated that they “definitely” made the right decision. See Figure 4.

For the remainder of the survey items, students were asked to indicate their level of satisfaction using a 5-point scale (5=*Extremely satisfied*, 4=*Satisfied*, 3=*Neutral*, 2=*Dissatisfied*, and 1=*Extremely dissatisfied*). In the *Student Life* section, students were asked to indicate their level of agreement with several statements using a 5-point scale (5=*Strongly agree*, 4=*Agree*, 3=*Neutral*, 2=*Disagree*, and 1=*Strongly Disagree*). Respondents were also given a *Not Applicable* option for some items.

For all items, the possible range of means is 1.00-5.00. All means are color-coded to highlight areas of strength and potential improvement (**Red:**  $\leq 1.99$ , **Yellow:** 2.00-2.99, **White:** 3.00-4.49, **Green:**  $\geq 4.50$ ).

**Institutional Results (pp. 6-17):** *Appendix A* presents survey results for the institution as a whole. For each item, the following data are provided:

- Mean level of satisfaction/agreement
- Standard deviation
- Total number of respondents for the scaled responses
- Color-coded graph illustrating the distribution of responses

**Results by School (pp. 18-24):** *Appendix B* presents survey results according to school. For each item, the following data are provided:

- Mean level of satisfaction/agreement
- Standard deviation
- Total number of respondents for the scaled responses

**Results by Campus (pp. 25-32):** *Appendix C* presents survey results according to campus. For each item, the following data are provided:

- Mean level of satisfaction/agreement
- Standard deviation
- Total number of respondents for the scaled responses

**Qualitative Data.** As part of the survey, students were given an opportunity to provide open-ended comments in response to the following prompts:

- 1) *What do you like most about TTUHSC?*
- 2) *How can we improve your experiences at TTUHSC?*

Respondents provided 1,464 comments to the first prompt and 1,309 comments to the second prompt. Any comments which indicated the student did not have a comment (e.g., *N/A, none*) or were otherwise not useful (e.g., *all, nothing*) were eliminated. Due to the sensitive nature of some comments, actual comments will be provided to selected institutional leaders only. They will determine how best to distribute them in their respective areas. Due to time constraints, no qualitative analyses have been conducted on these data.

## Conclusion

More often than not, it is difficult to determine what to do with information collected from general surveys like the *Student Satisfaction Survey*. It is one thing to collect the data—it is another thing entirely to use the information to promote continuous improvement. The first step in this process is to put the current data into context. Consider the following questions:

- Do these results support other existing data?
- Does additional information need to be gathered? (e.g., *follow-up surveys, focus groups, interviews*)

Once you have gained an appropriate perspective, identify an area of potential improvement or strength upon which to build. Consider what your desired outcome will be. Then, identify and implement a potential strategy for improvement. After a reasonable timeframe, evaluate whether the strategy has been successful. Did you achieve the desired outcome?

Continuous improvement is a process. Sometimes strategies for improvement will be successful—sometimes they will not. Although the ultimate outcome is indeed important, what is equally critical is the documentation of your efforts to make those improvements. Contact the *Office of Academic Planning and Compliance* for additional guidance in this process.

**Interprofessional education** occurs when students from two or more professions learn about, from, and with each other to enable effective collaboration and improve health outcomes. Once students understand how to work interprofessionally, they are ready to enter the workplace as members of collaborative practice teams.
